Well Sense Health Plan Reaffirms Commitment To New Hampshire's Medicaid Community

Manchester, NH – Well Sense Health Plan reaffirmed today that they are fully committed to New Hampshire and will continue to provide high-quality coverage to Medicaid enrollees throughout the state. The announcement comes in the wake of [Meridian Health Plan's](#) decision to end their contract in New Hampshire effective June 30, 2014.

General Manager Gail Garceau explained that Well Sense utilizes many of the same network providers as Meridian and stands ready to support the state during this period of change. “Our primary goal is to ensure that Meridian members continue to receive the care they need,” stated Garceau. “As the state’s largest managed care organization (MCO), Well Sense has the resources and capacity to help these individuals make a smooth transition.”

Well Sense Health Plan is the state’s only not-for-profit plan, located in Manchester, NH. The organization delivers state-wide access to primary care physicians, specialists, emergency room services and hospital care for nearly 50,000 members. In addition, Well Sense provides its members with “free extras” that go beyond traditional benefits including infant/toddler car seats, booster seats, bicycle helmets, manual breast pumps, and dental kits. Members also receive money back for qualified gym memberships and Weight Watchers® fees.

About Well Sense Health Plan

Well Sense Health Plan is one of the managed care organizations selected by the New Hampshire Department of Health and Human Services to provide health care coverage to New Hampshire’s Medicaid recipients. For more information, visit www.wellsense.org.
