ACA Clarity

Submit final applications for ACA Open Enrollment by Dec. 15

As we approach the final Open Enrollment push for ACA plans in New Hampshire, we'd like to thank you for your hard work this selling season. As you work to get your clients enrolled in the best plan for their needs over the final days, please consider WellSense Clarity plans for a combination of low-cost coverage and comprehensive benefits. Please make sure all applications are received by 11:59 p.m. on Dec. 15 to guarantee a Jan. 1 effective date.

ACA members must pay their premiums to secure coverage

As a reminder, individuals who enrolled for a Jan. 1 start date must pay their premiums by Dec. 31 to effectuate their coverage and receive ID cards. There are two ways in which they can pay:

- New applicants can make their first payment or set up autopay by using their [enrollment login](#)
- Call Member Service at 855-833-8122 and follow the prompts to our automated payment line

Please use the [autopay job aid](#) to help your clients make their binder payment and set up autopay.

Don't let your hard work go to waste – help ensure your clients are covered for Jan. 1 and that you receive compensation for your hard earned enrollments. You can find your at-risk member in the broker portal using [these instructions](#). If you need assistance identifying members who are at-risk, please contact your WellSense sales team representative.

Off-exchange plans offer savings and additional options for non-subsidized enrollees

WellSense recommends you verify subsidy eligibility for all your clients. For clients who are not subsidy eligible, WellSense offers lower cost and additional Silver plan options off-exchange than you will find on-exchange. You can assist your clients with these products via the [broker portal](#).
