

# WellSense Clarity plans Formulary (List of Covered Drugs)

Thank you for being a WellSense member. We're committed to providing comprehensive prescription drug coverage. This document is the complete list of pharmacy drugs and supplies, also called a formulary, that are covered by WellSense under your plan. It can help you and your healthcare providers understand your prescription drug coverage. You can find your formulary on our website at: [Prescriptions | Clarity Plans | WellSense Health Plan](#) or if you have questions if a particular drug is included or excluded on your formulary you can call us toll free at 855-833-8120.

**Inclusion of a pharmacy drug or item in this formulary doesn't guarantee coverage.** A medicine listed in this guide doesn't mean we'll pay for it. For example, some drugs may need prior authorization, or approval, for us to pay for them. In other cases, we may only pay for certain amounts or strengths.

This drug list is effective for plan year 2026.

It's updated monthly and the last update was on March 1, 2026.

The prescription drugs in this list have been added to the WellSense Clarity plans formulary for their reported medical effectiveness, safety and value. All the drugs in this formulary are approved by the U.S. Food and Drug Administration (FDA) and have been reviewed by our Pharmacy and Therapeutics Committee, a group of medical practitioners with expertise in evaluating the effectiveness of drugs in treating various conditions.

## What's a formulary?

A formulary is a list of prescribed medications or other pharmacy care products, services or supplies chosen for their safety, cost and effectiveness. The formulary lists medications by categories or classes and also sorts them into cost levels known as tiers. This list is guided by the Pharmacy and Therapeutics Committee. The committee reviews which medications will be covered, how well the drugs work, their safety and their overall value in treating a specific condition.

Your plan's formulary may change over time, such as when new drugs and generics become available, existing medications are approved for new disease categories, drugs have been withdrawn from the market for safety reasons or a medication becomes available without a prescription.

## **Which drugs are included in the formulary?**

This formulary is a complete list of prescription drugs that are included under your pharmacy plan.

Our list of covered drugs includes both brand-name and generic drugs. Brand-name drugs have the name the drug company that developed the drug gave it. Brand-name and generic drugs are functionally identical, but generic drugs generally cost less. For example, simvastatin is a commonly prescribed drug used to help control cholesterol. It's sold both as a generic and under the brand name Zocor. You can learn more about generic drugs on [the FDA's website](#).

## **How do I use the formulary?**

You can look for your drug by searching the drug name within the document or using the index at the end of this document. If you already know what your drug is used for, you can also look for the relevant section in the Table of Contents.

Sections are based on what the drugs are used to treat. For example, drugs used for a heart condition are under "Cardiovascular, Hypertension & Lipids." The first column of the chart lists the drug name. Brand-name drugs are upper-case (e.g., ELIQUIS). Generic drugs are shown in lower-case italics (e.g., atenolol).

## **Drugs used to treat multiple conditions**

Some drugs in the same dosage form may be used to treat more than one medical condition. In these instances, each medication is classified according to its first FDA-approved use. Please check the index of your formulary if you do not find your particular medication in the class/condition section that corresponds to your use.

## **What are tiers?**

This formulary contains tiers that will help you find out how we cover a drug. Each drug on the formulary is in a tier. Each tier represents a different cost level for what you pay for a medication (what you pay for a given drug is also called your cost share). Locate

your drug in the formulary and check the coverage information to the right of the drug name. This information will tell you what tier your drug falls in as well as any special requirements/limits on that drug. In most cases, they're structured in a general order from lowest to highest level of cost-share.

Below is a summary of tiers and the types of drugs included in each tier. Please refer to your plan documents to determine your copay level for Tiers 1 – 4. Tier 5 is an extra, zero-cost-share tier for drugs specifically required by the State of Massachusetts.

Tier	What drugs are included
Tier 1	Most generic drugs
Tier 2	Some generic drugs and preferred* brand drugs
Tier 3	Non-preferred brand drugs and Specialty drugs**
Tier 4	Zero Cost Share Preventative Drugs
Tier 5	Medical Service Drugs

\*Preferred brand drugs are brand name drugs determined by the Pharmacy and Therapeutics Committee to be among the most effective and cost effective.

\*\*Specialty drugs are drugs filled by a specialty pharmacy and limited to a 30-day supply. These are prescription medications that often require special storage, handling and close monitoring by you, your doctor or pharmacist.

For members that choose to receive a lesser quantity of any opioid contained in schedule II or III, there will be no financial penalty. Schedule II and III opioids are noted on the formulary with the abbreviation OP.

## Glossary

Below is a list of common abbreviations and their meaning.

### ACA: Affordable Care Act

Certain preventive medications, as described in the Patient Protection and Affordable

Care Act and detailed by the U.S. Preventative Services Task Force, are covered without cost-sharing with a prescription when provided by a participating retail or mail order pharmacy. These medications may have specific requirements for age, condition and the way they're being used.

**DS: Day Supply.**

These are drugs that are limited to 30-day supply on your plan

**LA: Limited availability**

For some medications, you need to use specified pharmacies to fill your prescription because the drug is only made available by the manufacturer to very limited pharmacies. Some of these medicines may be specialty medicines filled at a specialty pharmacy that specializes in particular classes of medication and health conditions.

**OC: Oral chemotherapy drugs**

Oral chemotherapy drugs are medications used to treat different types of cancer. They're taken in the form of pills, capsules or liquids.

**OP: Opioids**

Opioids are drugs that are powerful pain relievers that can also be addictive. Members worried about the addictive potention of opioids may choose to get a lower quantity when filling their prescription without incurring a financial penalty.

**OTC : Over-the-counter**

An OTC drug is a non-prescription drug.

**PA: Prior authorization**

Prior authorization is the requirement that your healthcare provider obtain approval for coverage or payment for prescription drugs from us before you fill your prescription. Without prior authorization, your prescription won't be covered at a pharmacy.

**QL: Quantity limit**

We limit the amount that we'll cover for certain drugs. These limits are designed to allow a sufficient supply of medication based on FDA-approved maximum daily doses, standard dosing and/or length of therapy of a drug.

**SP: Specialty drugs**

Specialty drugs are generally drugs used to treat rare, complex or chronic diseases; have complex storage and/or shipping requirements; or require comprehensive patient

monitoring and/or education. We usually require that you fill specialty drugs at a designated specialty pharmacy.

### **ST: Step therapy**

In some cases, the plan requires you to first try certain drugs to treat your medical condition before we'll cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A doesn't work for you, we'll then cover Drug B.

### **Are over-the-counter (OTC) drugs covered?**

In general, over-the-counter (OTC) drugs are not included in the pharmacy benefit. However, there are certain OTC drugs that are covered with a prescription. These drugs will be listed on the formulary. Examples of OTC drugs covered on the formulary include diabetic test strips and certain preventive medications under the ACA, such as insulin and smoking cessation products. Please note that only certain OTC drugs listed in the formulary are covered by the plan. These drugs can be identified when you see OTC under the Requirements/Limits section next to the drug name. All other OTC medications aren't covered.

### **Are there any drug exclusions on my formulary?**

Our pharmacy program doesn't cover all drugs and prescriptions. In general, only the drugs listed on this formulary are covered by your pharmacy plan. All other prescription drugs are excluded. Some exclusions on this plan include, but are not limited to:

- experimental or investigational drugs (Note: This exclusion does not apply to long-term antibiotic 35 treatment of chronic Lyme disease)
- drugs that haven't been approved by the FDA. This includes herbal and/or alternative drugs and medical foods that require a prescription
- drugs for the treatment of sexual dysfunction
- drugs for the treatment of weight loss (Note: GLP1 medications are covered for diabetes with prior authorization)
- Prescription drugs related to non-covered dental services.
- Vitamins and dietary supplements (except prescription prenatal vitamins, vitamins as required by the Affordable Care Act, fluoride for children and supplements for the treatment of mitochondrial disease).

- drugs used primarily for cosmetic purposes
- prescription drugs used primarily for the treatment of the symptoms of a cough or cold.
- Topical and oral fluorides for adults
- Prescription medications once the same active ingredient or a modified version of an active ingredient that is therapeutically equivalent to a covered prescription medication becomes available over the counter. In this case, the specific medication may not be covered and the entire class of prescription medications may also not be covered

### **What if I don't see the drug I need?**

If your doctor decides it's medically necessary for you to take a drug not listed, they can submit a coverage request to WellSense Health Plan through the ePA portal, via fax to 833-951-1680 or by calling 877-417-0528.

### **Can I receive a 90-day supply of my medication?**

Our members may choose to have 90-day supplies of certain drugs, known as maintenance medications, sent to their homes instead of filling prescriptions at a local retail pharmacy. Maintenance drugs are medications filled regularly for conditions like diabetes, asthma, high cholesterol or high blood pressure.

Members can obtain a 90-day supply of most maintenance drugs at each fill by signing up for our mail order program with Cornerstone Health Solutions. For both Tier 1 and Tier 2 drugs, as well as Tier 3 drugs, depending on your plan, having these prescriptions delivered to your home will save you time and money over picking them up at the pharmacy.

To use the mail order service, you must first enroll with Cornerstone Health Solutions. To enroll in this service and begin getting medications in the mail you can:

- Call Cornerstone Health Solutions at 844-319-7588
- Complete the [mail order enrollment form and follow the instructions available on our website.](#)

Your prescribing provider may also call Cornerstone Health Solutions at 844-319-7588 or fax your prescription to 781-805-8221.

Once you've enrolled, you can refill prescriptions by mail, phone [or online](#).

Once Cornerstone has your prescription and enrollment information, you can expect to receive your medications in 5-7 business days.

### **Can the formulary change?**

Yes. We review and update the formulary as needed. New medicines may be added, and medicines deemed unsafe by the FDA or a medication's manufacturer are immediately removed.

### **Appealing a decision**

If a request for prior authorization or exception results in a denial, you, your appointed representative or your prescribing provider (if granted your consent) may file an appeal. Both you and your provider will receive written notification of a denial, which will include the appropriate telephone number and address to direct an appeal. We recommend that your provider be involved in any appeal to provide additional information that may be needed.

### **Notice About Nondiscrimination and Accessibility**

WellSense Health Plan complies with applicable federal civil rights laws and does not discriminate, exclude people, or treat them differently on the basis of race, color, national origin, age, disability, sex, gender identity, sexual orientation, limited English proficiency, or moral or religious grounds (including limiting or not providing coverage for counseling or referral services). WellSense Health Plan provides:

- free aids and services to people with disabilities to communicate effectively with us, such as TTY, qualified sign language interpreters and written information in other formats (large print, audio, accessible electronic formats, other formats).
- free language services to people whose primary language is not English, such as qualified interpreters and information written in other language.

Please contact WellSense if you need any of the services listed above.

If you believe we have failed to provide these services or discriminated in another way on the basis of any of the identifiers listed above, you can file a grievance or request help to do so at:

Civil Rights Coordinator  
100 City Square, Suite 200  
Charlestown, MA 02129  
Phone: 855-833-8120 (TTY: 711)  
Fax: 617-897-0805

You can also file a civil rights complaint with the U.S. DHHS, Office for Civil Rights by mail, by phone or online at:

U.S. Dept. of Health and Human Services  
200 Independence Avenue, SW  
Room 509F, HHH Building  
Washington, D.C. 20201  
800-368-1019 (TDD: 800-537-7697)

## **List of Abbreviations**

**ACA:** Affordable Care Act.

**DS:** Day Supply. These are drugs that are limited to 30-day supply on your plan

**LA:** Limited Availability. This prescription may be available only at certain pharmacies. For more information, please call Customer Service.

**OC:** Oral Chemotherapy Drugs

**OP:** Opioids for which members may choose to get lower quantity without incurring a financial penalty.

**OTC:** Over the Counter. An OTC drug is a non-prescription drug.

**PA:** Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

**QL:** Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

**SP:** Specialty. This is a specialty drug. You may be required to fill this medication at a designated pharmacy.

**ST:** Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.
