About your Schedule of Benefits

This document, in addition to your Evidence of Coverage (EOC), contains a list of the services covered under your plan, along with the associated cost and coverage information. Should you need it, the glossary below provides definitions for terms you may see throughout this document.

Copayment

An amount you may be required to pay as your share of the cost for a medical service or supply, like a doctor's visit, hospital outpatient visit, or a prescription drug. A copayment is a set amount, rather than a percentage. For example, you might pay \$10 or \$20 for a doctor's visit or prescription drug.

Coinsurance

Coinsurance is a portion of the medical cost you pay after your deductible has been met. Coinsurance is a way of saying that you and your insurance carrier each pay a share of eligible costs that add up to 100 percent.

Limits

A cap on the benefits your insurance company will pay in a year while you're enrolled in a particular health insurance plan. These caps are sometimes placed on particular services such as prescriptions or hospitalizations. Annual limits may be placed on the dollar amount of covered services or on the number of visits that will be covered for a particular service. After an annual limit is reached, you must pay all associated health care costs for the rest of the year.

Deductible

An amount you could owe during a coverage period (usually one year) for covered health care services before your plan begins to pay. An overall deductible applies to all or almost all covered items and services. A plan with an overall deductible may also have separate deductibles that apply to specific services or groups of services. A plan may also have only separate deductibles.

Maximum Out-of-Pocket

The most you could pay during a coverage period (usually one year) for your share of the costs of covered services. After you meet this limit, the plan will usually pay 100% of the allowed amount. This limit helps you plan for health care costs. This limit never includes your premium, balance-billed charges or health care your plan doesn't cover. Some plans don't count all of your copayments, deductibles, coinsurance payments, out-of-network payments, or other expenses toward this limit.

Prior Approval

Approval from a health plan that may be required before you get a service or fill a prescription in order for the service or prescription to be covered by your plan.

Your Deductible and Out-of-Pocket Maximum

This Benefit Overview describes your coverage and Cost Sharing Amounts, including Deductible and Out-of-Pocket Maximum, under this plan.

General Cost Share & Features	In Network
Deductible: • Per Benefit Year • Medical, Dental, and Drug Combined	\$5,000/Individual \$10,000/Family
Dental Deductible	\$50/Individual
Out-of-Pocket Maximum: • Per Benefit Year • Medical, Dental, and Drug Combined	\$8,700/Individual \$17,400/Family
Dental Out-of-Pocket Maximum	\$350/Individual

If you are the Subscriber, and the only Member covered under your Plan, the Individual Deductible amount applies. If you have other Family Members on your Plan the Family Deductible amount applies. The Plan has an embedded Individual Deductible within the Family Deductible. If one Family Member meets their Individual Deductible, the plan will then begin paying for the member's services. Once the total Family Deductible is met, benefits are available for all Family Members. No one Member can contribute more than their Individual Deductible amount to the Family Deductible. Copayment or Coinsurance amounts a member pays for services shown as covered without a Deductible will not count toward meeting the Individual or Family Deductible.*

If you are the Subscriber, and the only Member covered under your Plan, the Individual maximum applies. If you have other Family Members on your Plan the Family maximum applies. Under Family coverage the Individual maximum applies separately to each covered Family Member. Once the total Family coverage maximum is met the Family maximum amount is satisfied. No one Member can contribute more than their Individual maximum amount to the Family limit.

*This does not apply to any services not subject to deductible such as preventive care.
