### Getting started with your new MassHealth coverage with WellSense

**Your medical care** All medically necessary care is covered by your MassHealth benefit. If you are currently in a course of treatment that requires approval to continue, your healthcare provider will work with WellSense to coordinate your care.

**Your current prescriptions** To see if your prescription drugs are covered on MassHealth's standard drug list, visit [wellsense.org/bilh](https://wellsense.org/bilh). If your drug is not covered, please work with your prescribing healthcare provider to find a drug that is

covered or to ask for approval of your current prescription.

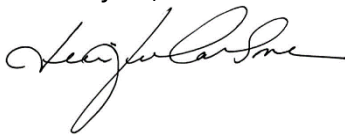

**Your new  
pharmacy  
network**

Starting on <<your effective date>>, you should start filling your prescriptions at pharmacies in our network. To see a list of pharmacies, visit [wellsense.org/bilh](https://wellsense.org/bilh). If you need to switch pharmacies, ask your new pharmacy to contact your old pharmacy and make the change.

**Thank you**
