WellSense Senior Care Options (HMO SNP) | 2024 *List of Covered Drugs* (Formulary)

Introduction

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs and over-the-counter (OTC) drugs and non-drug products are covered by WellSense Senior Care Options (HMO SNP). The Drug List also tells you if there are any special rules or restrictions on any drugs covered by WellSense Senior Care Options (HMO SNP).

Our contact information, along with the date we last updated the Drug List, appears on the front and back cover pages. Key terms and their definitions appear in the last chapter of the *Evidence of Coverage*.

Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs*. You can read all of the FAQ to learn more, or look for a question and answer.

B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “Drug List” for short.)

The drugs on the *List of Covered Drugs* that starts on page 13 are the drugs covered by WellSense Senior Care Options (HMO SNP). The drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

- WellSense Senior Care Options (HMO SNP) will cover all medically necessary drugs on the Drug List if:

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

This drug list was last updated on 11/15/2024.

- your doctor or other prescriber says you need them to get better or stay healthy,
- WellSense Senior Care Options (HMO SNP) agrees that the drug is medically necessary for you, **and**
- you fill the prescription at a WellSense Senior Care Options (HMO SNP) network pharmacy.
- In some cases, you have to do something before you can get a drug. Refer to question B4 for more information.
- You can also find an up-to-date list of drugs that we cover on our website at **wellsense.org/sco** or call Member Services at 855-833-8125 (TTY: 711).

B2. Does the Drug List ever change?

Yes, and WellSense Senior Care Options (HMO SNP) must follow Medicare and MassHealth rules when making changes. We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior authorization for a drug. (Prior authorization is permission from WellSense Senior Care Options (HMO SNP) before you can get a drug.
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, refer to question B4.

If you are taking a drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the Drug List now, or
- we learn that a drug is not safe, **or**
- a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the Drug List changes.

- You can always check WellSense Senior Care Options (HMO SNP)'s up-to-date Drug List online at **wellsense.org/sco**.
- You can also call Member Services at 855-833-8125 (TTY: 711) to check the current Drug List.

B3. What happens when there is a change to the Drug List?

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

This drug list was last updated on 11/15/2024.

Some changes to the Drug List will happen **immediately**. For example:

- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or the drug's manufacturer takes a drug off the market, we will take it off the Drug List. If you are taking the drug, we will let you know.

We may make other changes that affect the drugs you take. We will tell you in advance about these other changes to the Drug List. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We add a generic drug **and**
 - Replace a brand name drug currently on the Drug List **or**
 - Change the coverage rules or limits for the brand name drug.

When these changes happen, we will:

- Tell you at least 30 days before we make the change to the Drug List **or**
- Let you know and give you a 30-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- If there is a similar drug on the Drug List you can take instead or
- Whether to ask for an exception from these changes. To learn more about exceptions, refer to questions B10-B12.

B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization:** For some drugs, you or your doctor or other prescriber must get authorization from WellSense Senior Care Options (HMO SNP) before you fill your prescription. Prior authorization is different from a referral. WellSense Senior Care Options (HMO SNP) may not cover the drug if you do not get prior authorization.
- **Quantity limits:** Sometimes WellSense Senior Care Options limits the amount of a drug you can get.
- **Step therapy:** Sometimes WellSense Senior Care Options (HMO SNP) requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then we will cover the second.

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

This drug list was last updated on 11/15/2024.

You can find out if your drug has any additional requirements or limits by looking in the tables beginning on page 12. You can also get more information by visiting our website at wellsense.org/sco. We have posted online a document that explains our prior authorization restriction. You may also ask us to send you a copy.

You can ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead of whether to ask for an exception. Refer to questions B10–B12 for more information about exceptions.

B5. How will I know if the drug I want has limits or if there are required actions to take to get the drug?

The table in the List of Drugs by Medical Condition on page 12 has a column labeled “Necessary actions, restrictions, or limits on use.”

B6. What happens if WellSense Senior Care Options (HMO SNP) changes their rules about how they cover some drugs (for example, prior authorization, quantity limits, and/or step therapy restrictions)?

In some cases, we will tell you in advance if we add or change prior authorization and quantity limits restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the Drug List change.

B7. How can I find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically, **or**
- You can search by medical condition.

To search **alphabetically**, look for your drug in the Index of Covered Drugs section. You can find it on page 209.

To search **by medical condition**, find the section labeled “List of Drugs by Medical Condition” on page 12. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category CARDIOVASCULAR, HYPERTENSION / LIPIDS. That is where you will find drugs that treat heart conditions.

B8. What if the drug I want to take is not on the Drug List?

If you don’t find your drug on the Drug List, call Member Services at 855-833-8125 (TTY: 711) and ask about it. If you learn that WellSense Senior Care Options (HMO SNP) will not cover the drug, you can do one of these things:

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

This drug list was last updated on 11/15/2024.

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Refer to questions B10-B12 for more information about exceptions.

B9. What if I am a new WellSense Senior Care Options (HMO SNP) member and can't find my drug on the Drug List or have a problem getting my drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of WellSense Senior Care Options (HMO SNP). This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 30 days of medication.

We will cover a 30-day supply of most drugs if:

- you are taking a drug that is not on our Drug List, **or**
- our plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires prior authorization by WellSense Senior Care Options (HMO SNP), **or**
- you are taking a drug that is part of a step therapy restriction

If you are taking a drug that WellSense Senior Care Options (HMO SNP) does not consider to be a Part D drug, you have the right to get a one-time, 72-hour supply of the drug.

If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90-days, live in a long-term care facility, and need a supply right away:

- We will cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new WellSense Senior Care Options (HMO SNP) member.
- This is in addition to the temporary supply during the first 90 days you are a member of WellSense Senior Care Options (HMO SNP).

If you have a change in your level of care (e.g., are discharged from a hospital or long term care facility to the home), you may need to have a temporary supply of drugs filled when going from one setting to another. The pharmacy filling your medication may request an override by contacting our pharmacy help desk. We will cover up to a 30-day supply for each medication

that is not on our formulary or if your ability to get the drug is limited to allow you time to talk to your doctor and switch to an appropriate drug that we cover or request a formulary exception.

B10. Can I ask for an exception to cover my drug?

Yes. You can ask WellSense Senior Care Options (HMO SNP) to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, WellSense Senior Care Options (HMO SNP) may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

B11. How can I ask for an exception?

❖ To ask for an exception, call *Member Services*. A Member Services representative will work with you and your provider to help you ask for an exception. You can also read Chapter 8 of the *Evidence of Coverage* to learn more about exceptions.

B12. How long does it take to get an exception?

After we get a statement from your prescriber supporting your request for an exception, we will give you a decision within 72 hours.

Please complete the Model Drug Coverage Determination Form (Medicaid + Medicare) or the Model Drug Coverage Determination Form (Medicaid Only) and submit it to us one of the following ways:

You, your doctor, or an appointed representative can request a coverage decision on your behalf. Please complete the Model Drug Coverage Determination Form (Medicaid + Medicare) or the Model Drug Coverage Determination Form (Medicaid Only) and submit it to us one of the following ways:

B13. What are generic drugs?

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

This drug list was last updated on 11/15/2024.

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

WellSense Senior Care Options (HMO SNP) covers both brand name drugs and generic drugs.

B14. What are OTC drugs?

OTC stands for "over-the-counter". WellSense Senior Care Options (HMO SNP) covers some OTC drugs when they are written as prescriptions by your provider.

You can read the WellSense Senior Care Options (HMO SNP)'s Drug List to find out what OTC drugs are covered.

B15. Does WellSense Senior Care Options (HMO SNP) cover non-drug OTC products?

WellSense Senior Care Options (HMO SNP) covers some non-drug OTC products when they are written as prescriptions by your provider.

❖ Examples of non-drug OTC products include isopropyl alcohol and chlorhexidine topical liquid.

You can read the WellSense Senior Care Options (HMO SNP) Drug List to find out what non-drug OTC products are covered.

B16. Does WellSense Senior Care Options (HMO SNP) cover long-term supplies of prescriptions?

- **Mail-Order Programs.** We offer a mail-order program that allows you to get up to a 90-day supply of your prescription drugs sent directly to your home. A 30-day supply has the same copay as a one-month supply.
- **90-Day Retail Pharmacy Programs.** Some retail pharmacies may also offer up to a 90-day supply of covered prescription drugs. A 30-day supply has the same copay as a one-month supply.

B17. Can I get prescriptions delivered to my home from my local pharmacy?

Your local pharmacy may be able to deliver your prescription to your home. You can call your pharmacy to find out if they offer home delivery.

B18. What is my copay?

WellSense Senior Care Options (HMO SNP) members have no copays for prescription and over-the-counter (OTC) drugs and non-drug products as long as the member follows the plan's rules. Refer to questions B14 and B15 for more information about OTC drugs and non-drug products.

This drug list was last updated on 11/15/2024.

❖ All drugs on our Drug List are Tier 1 and have \$0 copay.

OTCs have a \$0 copay.

If you have questions, call Member Services at 855-833-8125 (TTY: 711).

Overview of the *List of Covered Drugs*

The *List of Covered Drugs* gives you information about the drugs covered by WellSense Senior Care Options (HMO SNP). If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins on page 209. The index alphabetically lists all drugs covered by WellSense Senior Care Options (HMO SNP).

❖ **Note:** The * (asterisks) next to a drug means the drug is not a “Part D drug.” These drugs have different rules for appeals.

- An appeal is a formal way of asking us to review a decision we made about your coverage and to change it if you think we made a mistake.
- For example, we might decide that a drug that you want is not covered or is no longer covered by Medicare or MassHealth (Medicaid).
- If you or your doctor disagrees with our decision, you can appeal. If you ever have a question, call Member Services at the numbers listed at the bottom of this page *or* at the numbers in the footer of this document.
- You can also read Chapter 8 of the *Evidence of Coverage* to learn how to appeal a decision.

C1. List of Drugs by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, CARDIOVASCULAR, HYPERTENSION / LIPIDS. That is where you will find drugs that treat heart conditions.

The first column of the table lists the name of the drug. Generic drugs are listed in lower-case italics (for example, *lisinopril*), brand name drugs are capitalized (for example, BYDUREON), and OTC drugs and non-drug products are listed in lower case (for example, acetaminophen). The information in the “Necessary actions, restrictions, or limits on use” column tells you if WellSense Senior Care Options (HMO SNP) has any rules for covering your drug.

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

This drug list was last updated on 11/15/2024.

Index of Covered Drugs

In this section, you can find a drug by searching for its name alphabetically. This will tell you the page number where you can find additional coverage information for your drug.

Below is a list of abbreviations that may appear on the following pages in the What the drug will cost you (tier level) column that tells you the tier coverage of your drug.

List of Abbreviations

\$0 (1): Covered Medications

\$0 (Non-Part D): Mass Health Covered Medications

Below is a list of abbreviations that may appear on the following pages in the Necessary actions, restrictions, or limits on use column that tells you if there are any special requirements for coverage of your drug.

List of Abbreviations

B/D PA: This prescription drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

LA: Limited Availability. This prescription may be available only at certain pharmacies. For more information, please call Customer Service.

MO: Mail-Order Drug. This prescription drug is available through our mail-order service, as well as through our retail network pharmacies. Consider using mail order for your long-term (maintenance) medications (such as high blood pressure medications). Retail network pharmacies may be more appropriate for short-term prescriptions (such as antibiotics).

OTC: Over the Counter. An OTC drug is a non-prescription drug that is not normally covered by a Medicare Prescription Drug Plan. Your plan may pay for certain OTC drugs at no cost to you. The cost of an OTC drug will not count toward your total drug costs.

PA: Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QL: Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

This drug list was last updated on 11/15/2024.

ST: Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

V: This vaccine is provided to adults at no cost when used based on recommendations by the Centers for Disease Control and Prevention’s (CDC) Advisory Committee on Immunization Practices (ACIP).
