## General overview

The WellSense Portal enables WellSense network providers to submit authorization requests and notifications electronically, track their progress, and receive decisions within a secure, real-time environment. Through the portal, providers can:

- **Submit** inpatient and outpatient requests
- **Monitor** request status and see if additional clinical information is required
- **Upload** any requested documentation directly within the portal
- **View** final determinations and decision letters

#### Note:

For outpatient requests, see “WellSense Provider Portal: Outpatient BH authorization requests”.

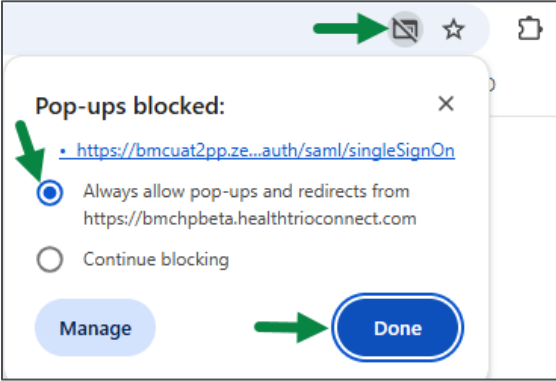

**All** inpatient admissions require WellSense notification or authorization.

**Key benefits of the WellSense Provider Portal:**

<b>Platform enhancements</b>	<b>Provider benefits</b>
